Weight: 43 lbs
Sound Level: 52 dB
Working Pressure: 125 psi
Horsepower: 3/4 hp
Air Outlets: one
Flow Rate: 2.75 scfm
Air Reservoir: 1 gal
Power Supply: 115 vac or 220 vac
Current: 10.5 amps
Wattage: 830
Frequency: 60 HZ or 50 HZ
Type: Oil-free

ProAir compressors, combined with ProPak™ delivery units allow the dental professional to easily service home-bound patients, nursing home residents, hospitals, missionary trips, veterinary clinics, as well as school-based sealant programs.

The ProAir I and ProAir III units have lightweight, oil-free compressors in rugged ATA style or ABS polycarbonate cases – ideal for applications where weight is an important consideration. ProAir II units have extremely quiet, internally lubricated compressors – ideal for applications where quiet operation is paramount.

Unlike other units, ProAir portable air compressors are specifically designed for dental applications. These provide clean, moisture and oil-free air, eliminating the worry of contamination.

ProAir II™

Case Size (L/W/D): 21.9" x 18" x 8.4"
Case Type: ABS Polycarbonate
Weight: 48 lbs
Sound Level: 40 dB
Working Pressure: 125 psi
Horsepower: 1/3 hp
Air Outlets: one
Flow Rate: 1.7 scfm
Air Reservoir: 1 gal
Power Supply: 115 vac or 220 vac
Current: 6.8 amps
Wattage: 825
Frequency: 60 HZ or 50 HZ
Type: Internally lubricated

ProAir III™

Case Size (L/W/D): 21" x 18" x 13"
Case Type: ATA
Weight: 55 lbs
Sound Level: 60 dB
Working Pressure: 125 psi
Horsepower: 3/4 hp
Air Outlets: two
Flow Rate: 2.75 scfm
Air Reservoir: 2.5 gal
Power Supply: 115 vac or 220 vac
Current: 10.5 amps
Wattage: 830
Frequency: 60 HZ or 50 HZ
Type: Oil-free
